

5G Fixed Wireless

Connectivity you can STACK™ on.

Realize greater speeds and reliability when you leverage the power of 5G.

- Choose from up-to 100 Mb and up-to 200Mb downlink speed options!*
- Unlimited data allowance
- Not qualified yet for 5G? Future-proof your connectivity with a 5G enabled device and one of our 4G FWA plans!
- 4G FWA speed options of 25Mb and 50Mb will automatically convert once 5G capacity becomes available at your location!**

Utilizing 5G Fixed Wireless

Our 5G plans are available on C-band only and require an NHC provided C-band certified CradlePoint W1850.

* 5G service requires successful service address qualification

** 4G FWA plans metered \$15/Gb over 300Gb per billing cycle

** 25Mb converts to 100Mb when deployed with CradlePoint W1850

** 50Mb converts to 200Mb when deployed with CradlePoint W1850

NHC 5G Fixed Wireless Access (FWA), powered by a super-powerful nationwide 5G network, enables next-gen customer experiences with next-level performance. End users can realize the following:

- Unlimited data consumption
- Low latency
- Faster speeds
- Agile connectivity
- Virtually limitless innovation

Benefits of NHC 5G Fixed Wireless

Speed & Performance - Enhanced 5G speed tiers feature no data limits or throttling, which provides optimal connectivity for the customer and a better experience for their remote workers – without worrying about overages.

Innovation Ready – Connect to the internet with improved efficiency as a primary or a redundant connection. End Users can take advantage of 5G speeds, expanded capacity, reduced jitter for video streaming, and preparation for next-generation network use.

Failover Solution – In the event of a network outage on a primary wired access, leveraging our 5G FWA is clean, easy and cost-effective!

- Backup internet and failover solutions are best for:
 - Healthcare, manufacturing, or industries requiring reliable connectivity for critical applications
 - Organizations that need high-speed internet for new stores, branches, or worksites
 - First responders, those in remote areas, and others seeking to stay connected in adverse conditions
