Poly Lens

(Recommended)

Customize your device behavior through advanced settings and options with Poly Lens App.

Download: <https://www.poly.com/us/en/products/services/cloud/poly-lens/app>

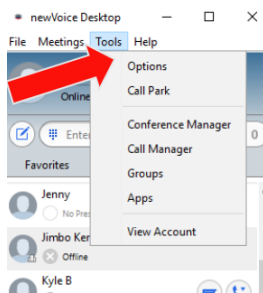

Keep your firmware up-to-date to improve performance and add new features to your Poly device.

Update your firmware using your computer with Poly Lens App.

While updating firmware:

- Do not use your Poly device until the update is complete.
- Disconnect your Poly device from paired devices such as phones, tablets, and computers.
- Do not start a second update from a second device.
- Do not stream media.
- Do not answer or place a call.
